

Claims

- [c1] 1. An easy-to-maintain rear projection television, comprising:
a casing, having a space therein and at least one guiding element in the space; and
at least one maintenance hole, formed through the casing to communicate with the space.
- [c2] 2. The television of claim 1, wherein the maintenance hole covers with a lid.
- [c3] 3. The television of claim 2, wherein the lid has a vent hole.
- [c4] 4. The television of claim 1, wherein the guiding element is a reversed L-shaped plate vertically mounted in the space to form a channel.
- [c5] 5. The television of claim 1, wherein a plurality of modular units are placed inside the space.
- [c6] 6. The television of claim 5, wherein the modular units respectively correspond to the maintenance holes.
- [c7] 7. The television of claim 1, further comprising a set of bulbs respectively corresponding to the maintenance

holes.

- [c8] 8. The television of claim 7, wherein the set of bulbs includes a fixed basket and a movable basket screwed onto the fixed basket, and the movable basket has a dismountable bulb.
- [c9] 9. The television of claim 1, further comprising a tuner corresponding to the maintenance hole.
- [c10] 10. The television of claim 1, further comprising an electronic unit corresponding to the maintenance hole.
- [c11] 11. The television of claim 10, wherein at least one guiding piece is mounted at a periphery of the electronic unit.
